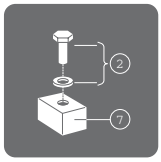
ARJO

BATH SYSTEMS

PARTS LIST



05.AR.05/8 GB
December 2005

How to order

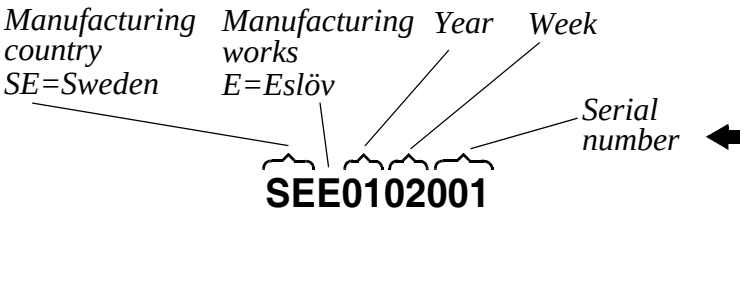
Before ordering spare parts study the exploded view closely and make sure that you note all involved spare parts.

Please note that gaskets and o-rings normally are included in kits and can not be ordered separately.

Note. all article numbers starting with **85** indicates that more than one detail is included in the article number.

When taking contact with Arjo Parts sales always have the following information at hand:

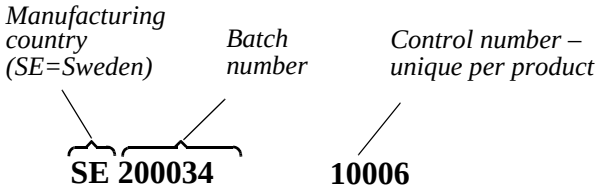
- Correct name of the product. See type label. The serial number of the product. See labels.



Explanation of the serial number:

Example of identification label

Old batch and control number (up to june 2001)



Electric supply

The unit must be continuously powered and connected to separate fuse with ground fault interrupter.

The unit must be permanently connected to the mains when used in the USA and Canada.
All electrical installations must comply with the US National Electrical Code and
the Canadian Electrical Code respectiviely.

Models P200+, P220 and P300	Market	Voltage	Frequency	Power consumption
Stillbath	Europe North America Japan Korea	230/240 V single phase AC 120 V single phase AC 100 V single phase AC 220 V single phase AC	50 Hz 60 Hz 50/60 Hz 60 Hz	max. 1200 VA max. 1200 VA max. 1200 VA max. 1200 VA
Hydrosound	Europe North America, model 001E Japan Korea	230/240 V single phase AC 120 V single phase AC 100 V single phase AC 220 V single phase AC	50 Hz 60 Hz 50/60 Hz 60 Hz	max. 1200 VA max. 1200 VA max. 1200 VA max. 1200 VA
Hydromassage	Europe North America Japan Korea	230/240 V single phase AC 120 V single phase AC 100 V single phase AC 220 V single phase AC	50 Hz 60 Hz 50/60 Hz 60 Hz	max. 1200 VA max. 1200 VA max. 1200 VA max. 1200 VA
